## PHOTOGRAPHY

Having professional photos taken of you and your family may be something you've been considering for a while, but getting everyone together at the same time and place, or the possible expense involved may have held you back.

I take a different approach...

I like to photograph people at home or a favourite outdoor location, which can be more convenient if there are young children in the family. I tend to favour natural light as it brings a special quality to portraits and avoids the 'staged' photography many studio shoots include. A beautiful photo will stand on its own merits. I usually allow 2 hours for a sitting so you don't feel rushed and as a dad, I know it can take children a while to adjust to a new face.

I am John Faulkner, thank you for your interest. I hope you like my work and feel free to get in touch with me any time.

“ John is a fantastic photographer, able to put subjects at their ease and compose beautiful images seemingly effortlessly. We have some fantastic images of our family now, thanks to John. ”
